

The Style of Manuscript for 37th Annual Conference of the RSJ

*Taro WASEDA (Robotics Society of Japan), Hanako TOHOKU (RSJ Co. Ltd.)

1. General instructions for the manuscript

The paper submission procedure for the International Sessions is basically the same as that for other regular sessions. For details, please refer to the International Session web site [2] for the 37th RSJ annual conference.

1. **[Microsoft Word]:** Please write the manuscript by using the sample file `sample2019_IS.doc` which can be downloaded from the web site [2]. Depending on the versions of your MS Word and OS, there is a possibility that the layout of the sample file is broken. In such a case, the manuscript should be properly prepared in accordance with the sample file in PDF format `sample2019_IS.pdf`.

[L^AT_EX]: When typesetting by L^AT_EX2e, please download `sample2019_IS.zip` from the web site [2] and use included `sample2e2019_IS.tex` and `rsj2019e_IS.sty`.

[Other cases]: The manuscript should be written in accordance with the sample file in PDF format `sample2019_IS.pdf`.

2. You must create a PDF file from DVI file or Word file, etc. Please refer to the web site [2] about the embedded font, the quality of graphics, and the security setup. Before submitting the PDF file, please double-check your file by using the Adobe Reader.
3. Follow the paper submission procedure described in the web site [2]. The uploaded PDF file will be included in the conference DVD-ROM.
4. It is strongly recommended for the authors who are willing to submit papers to the International Sessions to contact the corresponding session organizers before submitting the paper. They will check the fitting of your paper to their session.

2. Format of the manuscript

2.1 Number of pages and file size

Manuscripts for the International Sessions must be in English, and up to 2 pages of A4 size paper. The sizes of PDF file should not exceed 3 Mbytes. You can submit a movie file for a reference material. The total size of the movie file and the main paper PDF file should be less than 4MB. Manuscripts exceeding 2 pages cannot be published and files exceeding the regulated sizes cannot be submitted.

2.2 Paper layout

Please note that the conference paper format has been changed significantly since 2011 and an abstract

Fig.1 Sample image

and keywords are no longer necessary. Please follow the guidelines described in the web site [2] for the structure of a paper written in English.

2.2.1 Figures and tables

The figures and tables should have sufficient resolution for printing. Note, however, that the total file size including figures should not exceed the maximum file size (3M bytes).

2.2.2 References

In the main text, each reference citation should be enclosed in brackets as [1], and all references should be listed together at the end of the manuscript. Their formats are based on those of the Journal of the Robotics Society of Japan. Again please refer to the web site [2] for details.

3. Application for presentation and paper submission

The application for the presentation and the paper submission for the International sessions are the same as that for the regular sessions. Each contributor must apply for the presentation through the conference website by noon of June 14, 2019 and then upload the manuscript in PDF format by noon of July 1, 2019. Please keep the deadline strictly. For details, please refer the web site [2].
